Message from WUN Executive Director

Greetings,

It's been an engaging summer at Wake Up Narcolepsy. With our fall lineup of events including our 2nd annual Wicked Cornhole Tournament fundraiser for children with Narcolepsy, our one-day hybrid conference & patient summit, CCK kids camp and World Narcolepsy Day celebrations, we are working hard to support our community.

I am excited to report that since we launched our Patient Advocacy & Engagement program, we've enlisted over 80 volunteers in various capacities to serve our community. We plan to have our first meet-ups before the end of year. Please reach out if you want to be involved in one of our volunteer opportunities or would like to connect with our volunteer leaders in your local community.

After a summer break, our Brown Bag Webinars will resume on September 14th at 2:00 pm ET. Our speaker, Dr. Suzanne Stephens, will be discussing An Overview of Narcolepsy Medications in the US, so be sure to tune in to gain a clearer understanding of how each treatment works to combat the symptoms of Narcolepsy.

**Enjoy the rest of your summer and
I hope to see you at one of our events.**

- Monica Gow
